A Message from the Executive Director

Dear Friends,

As I reflect on 2021, I couldn't be more grateful for how you helped us continue to build the future for individuals with Down syndrome in the Omaha metro area. In 2021 we moved into our new program and office space, shifted to a hybrid model of programming offering both in-person and online options, and were able to get back into classrooms and hospitals to give presentations and meet with new families – it has been an incredible year of growth. None of this would be possible without YOUR support. Thank you! Enjoy reviewing all the amazing accomplishments that you helped make possible last year.

With Gratitude,
Leah Boldt

**THANK
YOU!**
